PROFESSIONAL PROFILE

Operations professional and U.S. Marine Corps veteran transitioning into IT infrastructure and cloud operations through MyComputerCareer's Information Technology Security and Administration (ITSA) program. Hands-on foundational coursework in Windows administration, network troubleshooting, Azure virtual machines, PowerShell scripting, system recovery, and cloud concepts. Brings five years of military signals-analysis experience and a civilian background in time-sensitive operations, issue escalation, enterprise systems, and cross-functional coordination.

TECHNICAL SKILLS & TRAINING

Systems & support: Windows installation and administration fundamentals; Windows CLI; operating-system recovery; hardware/software troubleshooting; remote desktop access; help-desk workflow and escalation concepts.

Networking & infrastructure: IP addressing, LAN/Wi-Fi connectivity, network diagnostics, VPN configuration, virtualization, virtual machines, and foundational network security.

Cloud & automation: Microsoft Azure Windows Server VM deployment; cloud service/deployment concepts; introductory AWS exposure; basic Windows PowerShell scripting; exposure to PowerShell DSC extension.

Azure AI coursework: Microsoft Foundry concepts, AI workloads, model selection, multimodal systems, document extraction, retrieval-augmented generation, agent tool use, and responsible AI.

Enterprise operations: SAP/ERP and transportation management systems (TMS); incident/issue coordination; status monitoring; operational reporting; customer and stakeholder communication.

TECHNICAL COURSEWORK & PORTFOLIO

MyComputerCareer | Information Technology Security and Administration (ITSA) | Aug 2026 – Expected Mar 2027

- Networking I completed: 99% overall; CompTIA Tech+ FC0-U71 course final assessment: 69/70 (99%).
- Azure AI Fundamentals (AI-901, curriculum designation): course final assessment 45/45 (100%), first attempt; separate certification exam scheduled for Oct 25, 2026.
- Selected guided labs: deployed a Windows Server virtual machine in Azure; created a basic PowerShell script; configured a VM using a PowerShell DSC extension; practiced network diagnostics, VPN configuration, and Windows recovery.
- GitHub technical portfolio: github.com/morrisok13 — foundational coursework and skill summary; independent project documentation in development.

Certification status: No external IT certifications claimed as earned; further Network+, Security+, and Azure administrator preparation planned.

PROFESSIONAL EXPERIENCE

Logistics Specialist | NewTechWood *Aug 2025 – Present*

- Coordinate order fulfillment, transportation scheduling, fleet activity, and inventory flow across customers, carriers, and internal teams.
- Monitor operational requirements, resolve exceptions, and maintain timely communication to support continuity and service delivery.

Customer Account Specialist I / Logistics Account Executive | Total Quality Logistics *Feb 2024 – Jun 2025*

- Managed time-sensitive account operations, shipment monitoring, carrier coordination, customer issues, and cross-functional communication.
- Documented service needs, prepared operational reports, and escalated concerns to maintain service commitments.

Customer Care Account Specialist | BASF *Jun 2022 – Nov 2022*

- Supported petrochemical customer accounts using SAP/ERP for order-to-cash workflows; identified and escalated exceptions through established processes.

Customer Logistics Supervisor | Ryder Logistics (Chevron account) *Nov 2019 – Apr 2020; Jun 2021 – Feb 2022*

- Coordinated equipment availability and utilization, monitored operational status, and worked with dispatch and customer representatives.
- Helped transition to a new transportation management system ahead of customer expectations while maintaining workflow continuity.

Case Number (RES-2019-00182)

Title: ELECTRONICS SIGNALS INTELLIGENCE (ELINT) ANALYST/OPERATOR (2631) | Company: USMC

May 2014-May 2019

- Performed electronic signals search missions. Recorded the intercept of signals. Measured, classified, and evaluated signals.
- Coordinated electronics intelligence (ELINT) training for analysts and operators alike.
- Worked as a signals intelligence (SIGINT) operator in support of the 31st Marine Expeditionary Unit (MEU) April-October 2016
- Worked ELINT missions at Pacific Command Joint Information Operation Center (PACOM JIOC), Pearl Harbor, Hawai'i: April-November 2017, October-January 2018

EDUCATION

Bachelor of Science, Maritime Administration | Texas A&M University at Galveston | 2014

Additional experience: Delmar Industries (Account Manager); Inchcape Shipping Services (Operations Representative); Legacy Ford (Automotive Sales); Discount Tire (Service Technician).
